

Off-Site SEO Playbook

Step-by-step to get Big Wave Slides listed, reviewed, and cited across Google, The Bash, Yelp, Reddit, Quora & the directories that actually drive bookings.

Who does this

You (the founder)

Time

~1 hr/week

Cost

Mostly free

Goal

Authority + direct bookings

START HERE

0 Before you list anywhere

Copy your business details **exactly the same** on every platform. Identical Name-Address-Phone ("NAP") is the #1 thing that makes local SEO work — one mismatched suite number or phone format quietly weakens every listing.

YOUR MASTER DETAILS — PASTE THESE EVERYWHERE

BUSINESS NAME	Big Wave Slides
ADDRESS	1717 Main Street, Suite 3300, Dallas, TX 75201
PHONE	Use your current published number, identically everywhere
EMAIL	contact@bigwaveslides.com
WEBSITE	https://www.bigwaveslides.com
CATEGORIES	Party Equipment Rental Service · Bounce House Rental Service

REUSABLE BUSINESS DESCRIPTION (PASTE ON GBP, YELP, DIRECTORIES)

Big Wave Slides rents and installs premium inflatable water slides, bounce houses, and combo units for birthdays, pool parties, school & church events, and community festivals. Every rental is delivered, professionally set up, sanitized, and fully insured — you bring the guests, we handle everything else. Serving Dallas and metros nationwide. Request a free quote at [bigwaveslides.com](https://www.bigwaveslides.com).

Always

Use the exact NAP above · real photos of your own setups · be genuinely helpful · reply to every review & question · pick the narrowest correct category.

Never

Invent reviews or fake addresses · spam links · copy-paste the same comment everywhere · list a number you don't answer · keyword-stuff your business name.

1 Google Business Profile

The single highest-impact task. It puts you in Google Maps + the local "map pack," and its reviews feed both Google and AI answers. Do this first and do it fully.

Set up & verify

IMPACT: VERY HIGH · FREE

- 1 Go to **google.com/business** → "Manage now" → search "Big Wave Slides" (create it if it doesn't exist).
- 2 Enter the exact **NAP**. Since you deliver, set it as a **service-area business** — list Dallas + the metros you serve, and you can hide the street address if you prefer.
- 3 Choose primary category **Party Equipment Rental Service**; add **Bounce House Rental Service** as secondary.
- 4 Add website <https://www.bigwaveslides.com>, your phone, hours, and the description above.
- 5 **Verify** the profile (video/postcard/phone — Google will pick). This unlocks the listing.

Fill it out & keep it alive

ONGOING · 10 MIN/WEEK

- 1 Upload **10+ real photos** — slides set up at real parties, your team, kids playing (with permission). Real photos beat stock every time.
- 2 Add **products/services** (each slide type) with prices linking to the matching page on your site.
- 3 Post a weekly **"Update"** (a booked event, a new slide, a seasonal offer) — active profiles rank better.
- 4 Turn on **messaging** and the **quote/booking** button pointing to your contact page.

Do: answer the "Questions & Answers" on your own listing — you can ask & answer common ones yourself (e.g. "Do you deliver and set up?").

REVIEWS ARE THE ENGINE

After every event, text the customer a **direct review link** (get it from your GBP dashboard → "Ask for reviews"). Aim for a steady trickle — **1-3 new reviews/week** beats 20 at once. Reply to every single one.

2 Event & party marketplaces

Unlike a plain directory, these send you paying leads **and** give you a strong backlink + a citable third-party profile. Highest ROI after Google.

The Bash (thebash.com)

IMPACT: HIGH · FREE LISTING + PAID TIERS

- 1 Sign up as a **vendor** → category "Party Rentals / Inflatables / Water Slides."
- 2 Complete the profile 100%: NAP, description, price range, service area (Dallas + metros), and 10+ real photos.
- 3 Respond to every lead **fast** — response time affects your ranking inside the platform.
- 4 Ask satisfied clients to leave a review **on The Bash** too (builds your vendor rating).

GigSalad

SISTER TO THE BASH

Same play: vendor profile under party rentals/inflatables, full NAP, photos, fast lead replies.

Thumbtack

LOCAL SERVICE LEADS

Create a pro profile, set your service area & travel radius, enable "party & event rentals." Pay per lead you choose to quote.

Do: keep price ranges & slide names consistent with your website so the listings reinforce (not contradict) your pages.

3 Yelp & local citations

These are "citations" — every consistent listing tells Google your business is real and where it operates. Set once, keep NAP identical, done.

Yelp for Business

IMPACT: HIGH · FREE

- 1 Claim/create at **biz.yelp.com** → category **Party Equipment Rentals + Bounce House Rentals**.
- 2 Add exact NAP, hours, website, service area, and 10+ real photos.
- 3 Add the business description. **Don't** ask for reviews directly (against Yelp policy) — instead add the "Find us on Yelp" badge to your site & let reviews come naturally.
- 4 Reply politely to every review, positive or negative.

Then submit to these citation sources — same NAP each time:

PLATFORM	WHY IT MATTERS	COST
Facebook Page	Big citation + where customers check you're real; links to sameAs .	Free
Nextdoor	Hyper-local — neighbors booking party rentals. Claim a Business page.	Free
Bing Places	Powers Bing + some AI answers (Copilot). Import from Google.	Free
Apple Business Connect	Apple Maps + Siri results.	Free
Yellow Pages (YP.com)	Classic high-authority citation.	Free
Better Business Bureau	Trust signal + backlink.	Free tier
Dallas Chamber / local .gov & .org	Local relevance — strong for "Dallas" queries.	Varies
Party-rental directories	Niche relevance (search "add my party rental business").	Free

Tip: keep a simple spreadsheet — Platform · URL · Login · Date listed — so you never duplicate or lose a listing.

4 Reddit & Quora

ChatGPT, Perplexity & Google's AI lean heavily on Reddit and Quora. Be **genuinely helpful** here and you earn both citations and referral clicks. Be spammy and you get banned — so play the long game.

Reddit

VALUE ACCOUNT FIRST

- 1 Use a real account; comment helpfully for a while before ever linking (build karma/trust).
- 2 Watch subs like **r/Dallas**, local city subs, **r/Mommit**, **r/party**, **r/EventPlanning**.
- 3 When someone asks about slide/party rentals, give a real, useful answer; mention your site only if it truly helps.
- 4 Post occasional value: "What a backyard water-slide party actually costs in 2026," with real numbers.

Quora

ANSWERS RANK FOR YEARS

- 1 Complete your profile with a credible bio ("Founder, Big Wave Slides — party rentals").
- 2 Search & answer questions: "How much is a water slide rental?", "Best party rentals in Dallas?", "Are inflatable water slides safe?".
- 3 Write the **best** answer on the page — specific numbers, safety facts, a clear takeaway.
- 4 Link naturally once per answer where relevant. Quality answers keep earning citations.

ANSWER TEMPLATE (ADAPT EVERY TIME — NEVER PASTE IDENTICALLY)

Great question! For a backyard water-slide party you're usually looking at *[real price range]*/day, and a good rental company delivers, sets up, sanitizes, and picks it up — all included. A few things I'd check before booking: *[insurance, anchoring/safety, blower power, setup space]*. We run Big Wave Slides out of Dallas and do this daily, so happy to answer specifics. Hope that helps!

Golden rule: if your comment reads like an ad, delete it. If it reads like advice from someone who clearly knows the trade, it works — and that's exactly what LLMs quote.

5 Reviews, video & weekly cadence

Listings get you found once; reviews, fresh posts, and video keep you climbing. Small and steady wins.

Review request

AFTER EVERY EVENT

TEXT TO SEND THE CUSTOMER

Hi *[name]*! So glad the party was a splash 🌊 If you have 30 seconds, a quick Google review really helps our small business: *[your GBP review link]*. Thank you — the Big Wave Slides team.

YouTube / TikTok

ANOTHER CITABLE SURFACE

Post short clips: "18ft water slide setup in a Dallas backyard," "How we sanitize between rentals." Put your website in the description. Video ranks and gets embedded elsewhere.

Your weekly rhythm (≈1 hour):

- ☐ Post **1 Google Business update** + reply to any new reviews/questions.
- ☐ Send **review requests** to the week's completed events.
- ☐ Do **one** of: submit a new directory · answer 2 Reddit/Quora questions · post 1 video.
- ☐ Reply to every marketplace lead (The Bash / GigSalad / Thumbtack) same-day.
- ☐ Once a month: check Google Search Console for rising queries & cities, then tell your developer which city wave to release next.

WHY THIS MATTERS MORE THAN ANY ON-SITE TWEAK

The website is already built to rank. About **6.5×** of AI citations — and most local trust — come from these **off-site** sources. This playbook is the real growth lever. Work it a little every week and it compounds.
